## Professional Summary

---

Enthusiastic and motivated B.Tech Computer Science student with a specialization in Cyber Security. Passionate about learning Full Stack Development and Cyber Security. Eager to gain hands-on experience and grow in the tech industry through practical training and real-world projects. Currently expanding skills through internship experiences.

## Education

---

Computer Science and Engineering(Cyber Security)

**Bapatla Engineering College** - Bachelor of Technology.

Oct 2022 – Jul 2026

- GPA: **8.2**
- **Coursework:** Ethical Hacking,

## Experience

---

**Python Programming Intern**, Codsoft

Nov 2023 – Dec 2023

- Successfully completed a one-month internship in Python programming
- Gained hands-on experience with Python fundamentals including variables, loops, functions, and file handling
- Completed tasks and assignments involving real-world programming scenarios
- Developed a strong foundation in writing clean, readable, and efficient Python code

**Web Development Intern (Ongoing)**, Apex Planet

May 2025 – June 2025

- Currently undergoing practical training in front-end web development
- Learning to build responsive and interactive web pages using HTML, CSS, and JavaScript
- Working on mini-projects to implement real-time UI designs and layouts
- Gaining exposure to version control tools like GitHub and collaborative development practices

## Certifications

---

**ANICAT Challenge** – Certificate of Participation

may 2025

Completed the Anicat Challenge, demonstrating consistency, logical thinking, and programming practice through structured tasks.

**NCAT Coding Contest** – Certificate of Participation

may 2025

Participated in a national-level coding competition focused on problem-solving and algorithmic thinking.

**Java Programming** – Infosys Springboard

may 2025

Earned a certification for successfully completing the Java programming course, covering object-oriented principles and core syntax.

**Python Foundation Certificate**- Infosys Springboard

may 2025

Certified for foundational knowledge in Python programming, including variables, loops, and functions.

## Projects

---

**Quiz Application with API Integration**

- Developed a dynamic and responsive quiz web application using HTML, CSS, and JavaScript
- Integrated an external API to fetch quiz questions in real-time
- Implemented user interface logic for score calculation, question navigation, and interactive feedback
- Strengthened understanding of asynchronous JavaScript, API calls, and DOM manipulation

## **Interactive Web Page**

- Built a responsive web page with a contact form and image gallery using HTML, CSS, and JavaScript
- Implemented real-time email validation and dynamic image addition/removal
- Used CSS Grid, Flexbox, and media queries for a mobile-friendly layout

## **Technologies**

---

Languages: C, Java, SQL

Technologies: HTML, CSS, CSS Grid & Flexbox, JavaScript

## **Extracurricular**

---

### **Event Coordinator – College Technical And Cultural Events**

Coordinated and managed college-level events, ensuring smooth logistics and active student participation  
Worked with cross-functional teams to plan, organize, and execute technical and cultural programs  
Developed leadership, communication, and time management skills through hands-on experience.

### **Hackathon Participant – FossHack**

Collaborated with a team to design and build a real-time tech solution under time constraints. Gained hands-on experience in problem-solving, teamwork, and building quick, innovative prototypes in a high-pressure environment.

## **Languages**

---

Telugu, English
